"Alex Tizon fearlessly penetrates the core of not just what it means to be male and Asian in America, but what it means to be human anywhere."—Cheryl Strayed, New York Times bestselling author Shame, Alex Tizon tells us, is universal—his own happened to be about race. To counteract the steady diet of American television and movies that taught Tizon to be ashamed of his face, his skin color, his height, he turned outward. ("I had to educate myself on my own worth. It was a sloppy, piecemeal education, but I had to do it because no one else was going to do it for me.")

Tizon illuminates his youthful search for Asian men who had no place in his American history books or classrooms. And he tracks what he experienced as seismic change: the rise of powerful, dynamic Asian men like Yahoo! cofounder Jerry Yang, actor Ken Watanabe, and NBA starter Jeremy Lin. Included in this new edition of Big Little Man is Alex Tizon’s “My Family’s Slave”—2017’s best-read digital article. Published only weeks after Tizon’s death in 2017, it delivers a provocative, haunting, and ultimately redemptive coda. “A ruthlessly honest personal story and a devastating critique of contemporary American culture.”—The Seattle Times “Part candid memoir, part incisive cultural study, Big Little Man addresses—and explodes—the stereotypes of Asian manhood. Alex Tizon writes with acumen and courage, and the result is a book at once illuminating and, yes, liberating.”—Peter Ho Davies, author of The Welsh Girl “This personal narrative of self-education and growth will engage any reader captivated by the sources of American, and Asian-American, manhood—its multitude of inheritances and prospects.”—Minneapolis Star Tribune

The Idea of “The Green Book” is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn’t know about and aren’t listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it

From the author of Fresh Off the Boat, now a hit ABC sitcom, comes a hilarious and fiercely original story of culture, family, love, and red-cooked pork. Eddie Huang was finally happy. Sort of. He’d written a bestselling book and was the star of a TV show that took him to far-flung places around the globe. His New York City restaurant was humming, his OKCupid hand was strong, and he’d even hung fresh Ralph Lauren curtains to create the illusion of a bedroom in the tiny apartment he shared with his younger brother Evan, who ran their restaurant business. Then he fell in love—and everything fell apart. The business was creating tension within the family, his life as a media star took him away from his first passion—food; and the woman he loved—an All-American white girl—made him wonder: How can Asian am I? The only way to find out, he decided, was to reverse his parents’ migration and head back to the motherland. On a quest to heal his family, reconnect with his culture, and figure out whether he should marry his American girl, Eddie flew to China with his two brothers and a mission: to set up shop to see if his food stood up to Chinese palates—and to immerse himself in the culture to see if his life made sense in China. Naturally, nothing went according to plan. Double Cup Love takes readers from Williamsburg dive bars to the skies over Mongolia, from Michelin-starred restaurants in Shanghai to street-side soup peddlers in Chengdu. The book rocks off as a sharply observed, globe-trotting comic adventure that turns into an existential suspense story with high stakes. Eddie takes readers to the crossroads where he has to choose between his American and Chinese selves. His future, between who he once was and who he might become. Double Cup Love is about how we search for love and meaning—in family and culture, in romance and marriage—but also how that search, with all its aching and overpowering complexity, can deliver us to our truest selves. Praise for Eddie Huang’s Double Cup Love “Double Cup Love invites the readers to journey through [Eddie Huang’s] love story, new friendships, brotherhood, a whole lot of eating and more. Huang’s honest recounting shouts and whispers on every page in all-caps dialogues and hilarious side-commentary. Huang pulls simple truths and humor out of his complex adventure to China. His forthright sharing of anecdotes is sincere and generates uncontrollable laughter. . . . His latest memoir affirms not only that the self-described “human panda” is an American who tries to locate himself in the country’s racial binary. There are the businessmen turning Flushing into a center of immigrant wealth; the casualties of the Los Angeles riots; the new immigrant solidarity—one rooted not in bubble tea and elite college admissions but in the experiences of middle-class manhood. In doing so, Jewell addresses a key issue in the historical and cultural sweep of Asian immigrants to the United States. Nobody, including the lawmakers who passed the bill, expected it to transform the country’s demographics. But over the next four decades, millions arrived, including Raj Casipian Kang’s parents, grandparents, aunts, and uncles. They came with almost no understanding of their new home, much less the history of “Asian America” that was supposed to define them. The Loneliest Americans is the unforgettable story of Kang and his family as they move from a housing project in Cambridge to an elite college town in the South and eventually to the West Coast. Their story unfurls against the backdrop of a rapidly expanding Asian-America, as millions more immigrants, many of them working-class or undocumented, stream into the country. At the same time, upwardly mobile urban professionals have struggled to reconcile their parents’ assimilationist goals with membership in a multicultural elite—all while trying to carve out a new kind of belonging for their own children, who are neither white nor truly “people of color.” Kang recognizes this existential loneliness in himself and in other Asian Americans who try to locate themselves in the country’s racial binary. There are the businessmen turning Flushing into a center of immigrant wealth; the casualties of the Los Angeles riots; the impoverished parents in New York City who believe that admission to the city’s school system is the only way out; the men’s right’s activists on Reddit ranting about intermarriage; and the handful of protesters who show up at Black Lives Matter rallies holding “Yellow Peril Supports Black Power” signs. Kang’s exquisitely crafted book brings these lonely parallel climbers together and calls for a new immigrant solidarity—one rooted not in bubble tea and elite college admissions but in the struggles of refugees and the working class.
